

ANNEX F

Unpaved Area Routine Inspection Checklist

Form: PGIA-PMM-F06

Completed by Apron Supervisor or OM: weekly and after any triggering event. Submitted to OM.

Date:	
Time:	
Conducted by (Name / Position):	
Inspection Type:	Routine Weekly ☐ post-rain ☐ post-excursion ☐ Pre/Post Grass-Cut ☐ Other: _____
Recent Rainfall (mm, if applicable):	
Weather:	

ZONE 1 — RUNWAY STRIP GRASS AREAS	SAT	NO SAT	Remarks / Location
UA-01 Grass height measured at representative points within 20–38 cm range	☐	☐	
UA-02 No areas of grass exceeding 38 cm height anywhere in runway strip	☐	☐	
UA-03 No objects, debris, or non-grass items exceeding 7.5 cm height in cleared area	☐	☐	
UA-04 No significant depressions, mounds, or ruts > 7.5 cm in runway strip	☐	☐	
UA-05 No saturated or flooded zones in runway strip adjacent to runway edges	☐	☐	
UA-06 No wildlife nests, burrows, or significant bird/wildlife congregation observed	☐	☐	
UA-07 No unauthorized equipment, vehicles, or materials left in runway strip	☐	☐	
UA-08 Runway strip boundaries (fence / markers) intact and correctly positioned	☐	☐	

ZONE 2 — RUNWAY END SAFETY AREAS (RESA)	SAT	NO SAT	Remarks / Location
UA-09 RESA at Threshold 07 completely free of objects > 7.5 cm height	☐	☐	
UA-10 RESA at Threshold 07 ground surface level, no significant depressions or mounds	☐	☐	
UA-11 RESA at Threshold 07 no standing water; ground appears firm	☐	☐	

UA-12 RESA at Threshold 07 no soft spots or subsidence evident under foot-probe	☐	☐	
UA-13 RESA at Threshold 25 completely free of objects > 7.5 cm height	☐	☐	
UA-14 RESA at Threshold 25 ground surface level, no significant depressions or mounds	☐	☐	
UA-15 RESA at Threshold 25 no standing water; ground appears firm	☐	☐	
UA-16 RESA at Threshold 25 no soft spots or subsidence evident under foot-probe	☐	☐	

ZONE 3 — TAXIWAY STRIPS (ALPHA, BRAVO, CHARLIE,)	SAT	NO SAT	Remarks / Location
UA-17 Taxiway Alpha strip grass within acceptable height range; no objects > 7.5 cm	☐	☐	
UA-18 Taxiway Alpha strip no soft spots adjacent to taxiway shoulders	☐	☐	
UA-19 Taxiway Bravo strip grass within acceptable height range; no objects > 7.5 cm	☐	☐	
UA-20 Taxiway Charlie strip grass within acceptable height range; no objects > 7.5 cm	☐	☐	
UA-22 No saturated areas in taxiway strips that may undermine unpaved shoulder integrity	☐	☐	

ZONE 4 — TURN PAD SURROUNDS	SAT	NO SAT	Remarks / Location
UA-23 Turn pad surround at Threshold 07 free of FOD, loose aggregate, and objects > 7.5 cm	☐	☐	
UA-24 Turn pad surround at Threshold 07 no ruts > 7.5 cm from nose gear	☐	☐	
UA-25 Turn pad surround at Threshold 25 free of FOD, loose aggregate, and objects > 7.5 cm	☐	☐	
UA-26 Turn pad surround at Threshold 25 no ruts > 7.5 cm from nose gear	☐	☐	

ZONE 5 — INFIELD GRASS AREAS	SAT	NO SAT	Remarks / Location
UA-27 No unauthorized vehicles, materials, or structures in infield areas	☐	☐	
UA-28 No waste accumulation, debris piles, nesting material, or animal carcasses	☐	☐	
UA-29 No significant bird or wildlife congregation creating aviation hazard	☐	☐	
UA-30 No infield grass exceeding 50 cm height	☐	☐	

ZONE 7 — SATURATED AND LOW-BEARING ZONES	SAT	NO	Remarks /
---	------------	-----------	------------------

		SAT	Location
UA-31 All mapped Zone 7 areas no expansion of saturated zones beyond mapped boundaries	☐	☐	
UA-32 No new soft spots or subsidence identified outside existing Zone 7 map	☐	☐	
UA-33 No upwelling water or seepage from Zone 7 areas onto adjacent safety areas	☐	☐	
UA-34 No unauthorized vehicle entry into any Zone 7 restricted area	☐	☐	
UA-35 Zone 7 restricted zone markers/signage in place and legible	☐	☐	

DEFICIENCIES AND OBSERVATIONS (describe zone, item, location, condition, and recommended action):
